**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph A Kolasch on 06/10/2005.

The application has been amended as follows:

In the specification,

page 5, line 5: before the recitation "hook threshold 32" insert --stepwise--.

In the abstract,

line 1: delete "The present invention relates a" and substitute --A--,

lines 10-11: after the recitation "case body 10. The" delete "present inventive".

Claims 1 and 2 have been cancelled.

New claim 3 has been added as follow:

3. A cosmetic case (1) having receipt function of toilet set comprising a case body (10) having a receipt part (11) formed on a top portion of the cosmetic case to receive cosmetics (11a) and a case cover (20) removably connected to the top portion of the case body (10); a receipt space (12) is formed on a bottom portion and located directly

beneath said receipt part (11) of the case body (10) to slidably receive and to carry a toilet set (30), said toilet set having an upper side and an opposite lower side; and the toilet set (30) has a cosmetic applicator head at a first end and a stepwise hook threshold (32) formed at an upper portion of said upper side of an opposite second end of the toilet set, said stepwise hook threshold hooked to an inner side (21) of a lower end of the case cover (20) when the case cover (20) is rotated into a closed position with the case body, whereby the toilet set (30) is coupled and secured into the receipt space (12), wherein a pushing threshold (31) is formed on a rear portion of said opposite lower side of the toilet set (30), one end (14b) of a spring (14) contacting the pushing threshold (31) to allow the toilet set (30) to be drawn out of the case body by the elastic force of the spring (14) when the case cover is rotated into an open position with said inner side (21) disengaging said stepwise hook threshold.

2. Claim 3 is allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance: none of the cited prior art teaches a cosmetic case having, in conjunction with other limitations, the receipt space, the stepwise hook threshold hooked to the inner side of a lower end of the case cover, and the pushing threshold contacting the end of the spring to allow the toilet set to be drawn out of the case body by the elastic force of the spring as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
